Datura tatula 84
Davenport, C. B. *278*, 533, *567*
Deflandre, Cl. 554, *561*
Delage, Y. 336, *338*
Delaunay, L. 66, 82
Dembowski, 553, *568*
Demerec, M. 417, 438, *439*, 494, *504*
Dental anomalies, Studies in the causes of **570**
Detlefsen, J. A. 344, *347*, 531, *567*
Dexter, J. S. 2, 50, *57*
Differential action, sugary gene in maize **348**
Domin, K. 60, 79, *82*
Downs, W. G. 579
Downs, W. G., Jr. **570**
Drimiopsis maculata 64
Drosophila funebris, **128**, 129, 130, 153, 163
  Alae divergentes **153**
  Phenotypic manifestation of the genovariation radius incompletus **128**
  Phenotypic manifestation of genotype **161**
  Phenotypic manifestation of hereditary characters **129**
  Radius incompletus 125, 128
    Appearance and selection **133**
    Crossing various lines **147**
    Different "strength" of manifestation in different lines **156**
    Effects of selection in pure and heterogeneous lines **147**
    Inhibitor **149**
    Recessiveness and dominance **159**
  Reduction of genetalia in males **154**
    Selection of "feeble" and "strong" lines **144**
    Sex-limitation **159**
    Single genes effecting expression of **149**
  Reverse genovariation in **125**
  Venae transversae incompletus **155**
Drosophila melanogaster 129, 130, 163
  Aberrations that involve a whole chromosome **25**
  Autosomal deficiencies **5**
  Chromosome aberrations **40**
  Correlation, length of larval and pupal period **46**
  Deficiency and duplication of the fourth chromosome **28**
  Deficiency and duplication of the X chromosome **26**
  Double yellow **27**
  Effect of chromosome aberrations **1**
  Haplo IV **28**
  Haplo IV flies, Retarded stages in **42**
  Minute **9**
  Notch deficiencies **2**
  Notch male **3**, **41**
  Nullo-IV **40**
  Nullo-X **40**
  Pale duplication **41**
  Pale translocation **12**
  Plexate **6**
  Sectional aberrations **24**
  Sectional duplications **12**
  Triplo-IV **35**, **41**
  Triplo-X **41**
